

Wells Lamont Industrial.

Your partner in needlestick protection.

Introducing the **WLI Level 5 Needlestick Resistant LabPro™ Glove [#PB100]**, a breakthrough in protection designed using our new **PointBreak™ Technology**.

WLI PointBreak™ gloves offer advanced protection where it matters most — covering the first three fingers, part of the palm, and fully wrapping the first finger for defense against needlestick injuries. Perfect for delicate procedures like animal inoculation and organ retrieval, they deliver unmatched safety without compromising on comfort. With the highest level of needlestick resistance, WLI ensures that professionals can work confidently, knowing they're protected by the best.
